EDUCATION

New Jersey Institute of Technology (NJIT)

B.S. in Information Technology.

Relevant Coursework: Intro to IT, Internet Application

Newark, NJ

Expected May 2028

Rochester Institute of Technology

Accelerated BS/MS, Cybersecurity. Performing Arts Scholar; Honor Student; Dean's List.

Present

Relevant Coursework: Intro to Cybersecurity, Programming for Cybersecurity (Assembly and C), System Administration, Software Development (Python and Java)

SKILLS

Cybersecurity and Systems: Vulnerability Assessment, System Administration, Scripting, Linux (Kali/Rocky), Windows, PowerShell, Bash

Programming and Development: Python, C, Java, JavaScript, HTML/CSS

Tools and Technologies: Git, IntelliJ, Microsoft Suite, Figma

CERTIFICATIONS

- CompTIA Security+
- Wells Fargo Software Engineering Job Simulation, Forage (Aug 2026)

PROJECTS

Security Suite: Password Checker <https://github.com/QueenMe1/security-suite.git>

- Built a Python tool to validate password strength against criteria including length, character variety, and pattern matching.
- Implemented conditional logic and string processing to enforce complexity rules and flag weak passwords.

System Administration Scripts <https://github.com/QueenMe1/Systems-Administration>

- Developed Python scripts to automate Linux system tasks including log rotation, user account management, and file backups.

Personal Portfolio Website <https://queenme1.github.io/>

- Built a responsive portfolio site in HTML, CSS, and JavaScript, optimized for usability and cross-device accessibility.

EXPERIENCE

Software Engineering Participant

Aug 2026 – Aug 2026

Wells Fargo (Forage Job Simulation)

Remote

- Analyzed requirements for a financial portfolio management system and identified data structures needed to support it.
- Designed an entity relationship diagram (ERD) to model system data, implemented it in IntelliJ, and published to GitHub.

Teacher

Jul 2024 – Aug 2024

Prime Factors Lab and Rutgers University

Newark, NJ

- Facilitated mobile app design instruction for student groups using Swift and front-end coding basics.

Coding Fellow, Karim Khabouch Coding Fellowship

Jul 2023 – Jun 2024

The Knowledge House

Bronx, NY

- Completed a competitive fellowship with 100+ hours of training in HTML, CSS, JavaScript, and UX/UI design.
- Presented capstone projects to industry stakeholders in virtual demos; participated in career workshops and mentorship.

ACTIVITIES & LEADERSHIP

Rochester Institute of Technology

Nov 2025 - Jan 2026

Student Orientation Coordinator (Programming SOC)

- Coordinated logistics and scheduling for large-scale orientation programming; mentored student staff.

RITSEC

Member

- Cybersecurity club focused on hands-on security skills and competitions.

RIT SPA

Member

- Performing Arts Community.
